Dear Speaker Pelosi and Majority Leader Hoyer

Attached please find support letters on behalf of the National Association of State Energy Officials (NASEO) for bipartisan bills approved by the U.S. House of Representatives Committee on Science, Space, and Technology.

NASEO supports early favorable floor action on these important bills as they will promote the research, development, demonstration, and deployment of innovative technologies to advance the security, resiliency, and economic opportunity associated with our Nation’s energy infrastructure. We are especially appreciative of the bills that draw connections to NASEO members, the 56 governor-designated energy officials from the states, territories, and the District of Columbia, who play instrumental roles in emergency response planning, technology commercialization, and economic development at the state and local level in partnership with the U.S. Department of Energy, industry, and research community.

Thank you for your consideration, and please contact NASEO General Counsel Jeff Genzer (jcg@dwgp.com) or me, NASEO Executive Director David Terry (dterry@naseo.org), with questions or for more information.

Sincerely,

David Terry, NASEO Executive Director
